- ☒ Middle school teachers work in public and private schools. They generally work school hours when students are present and do not prepare lessons in nights.
- ☒ In this school, there are many disruptions. Not just the fire drill, concert assembly .
- ☒ Many disruptions. In this school kids at this level are leaving the room for a multitude of reasons including special testing, home work etc
- ☒ The biggest problem I see with teachers at this level is they are totally engrossed in their subject matter. It is fine to be dedicated and love your subject, but at this level (in this setting), it is the kid that matters.

School ends at 2:30 Pm.

What Middle school teachers must do:

- Middle school teachers must have a bachelor's degree. In addition, public school teachers must have a state-issued certification or license. Then they can teach English and other subjects to students
- ☒ They must prepare their lessons in nights and not in school hours when students are present.
- ☒ At middle schools, teachers must encourage kids to try different activities so they can find out what they like. They will gain confidence. The most overworked phrase in middle-school is "that's not fair." Get used to it. Students are watching and judging teachers all the time.
- ☒ No system of education is above the level of its teachers. Teachers play a crucial role in the system of education. It is important that these teachers are equipped with proper knowledge, skills and attitudes in carrying out the goals of education and fulfilling their obligations.
- ☒ To become a middle school teacher you must complete specific education requirements as determined by the state in which you wish to teach.

These are the things that most of the middle school teachers do not do.

Education is the basic necessity for a human being to understand the matters in all fields of life and to solve problems from basic to complex. Without education a sensible person cannot survive and it is as significant as food is to body.
